Visual Landmark Trials

Summaries of important trials in endocrinology summarized in visual abstracts

Question Bank

Over 1500+ Questions (and still growing) in basic science and clinical endocrinology.

Study Aids

Collection of videos, mnemonics, and short notes in endocrinology

Why This Learning Resource?

MyEndoConsult is a free platform for medical students, internal medicine residents, and endocrinology fellows who are looking to expand their knowledge in endocrinology. Examples of resources on this website include multiple-choice questions, infographics of clinical trials, management algorithms, journal club, illustrative case reports, and endocrinology fellowship resources.

Meet Our Team

An introduction to some members of our team...

EDITORIAL TEAM

Alan Sacerdote

Clinical Professor of Medicine, New York University School of Medicine.

MEDICAL ILLUSTRATION

Avinindita N. Lestari

Avinindita Nura Lestari is medical student based in Bandung, Indonesia, who loves to make illustrations.

AUTHOR

Akuffo Quarde

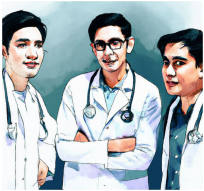

Endocrinology and Hospital Medicine (Sanford Health, Minnesota)

Featured Resources

Calculators in Endocrinology

Our web calculators cover a range of areas in endocrinology, including diabetes management, thyroid function testing, and bone health assessment. Each calculator is designed to provide accurate and relevant results based on the latest research and clinical guidelines.

Endocrine Pathophysiology

This series of articles in clinical endocrinology is designed for endocrinology fellows interested in gaining a better understanding of endocrine pathophysiology. These carefully selected concise articles are part of our “Understanding Endocrine Pathophysiology Series”
